Source: CT Office of Policy and Management: *Municipal Fiscal Indicators, 2006*; Department of Economic Community Development: *Distressed Municipalities, 2007* (the most recent information available)

*The distressed municipalities are determined in accordance of CGS 578 Section 32-9p by the following components:

- (1) Per capita Income for 2000 (2) Percent of population in poverty (3) unemployment rate
- (4) percent change in population from 1990 to 2000 (5) percent change in employment
- (6) percent change in per capita income from 1990 to 2000 (7) percent of house stock
- (8) percent of population with a high school degree or higher in 2000 (9) per capita adjusted equalized new grand list in 2007

*Property tax revenue as a percentage displays the total percentage of municipal revenue funded by property taxes for each municipality.

*The equalized mill rate is the tax rate derived from the most recent grand levy of a town divided by the full value of all taxable property in the municipality.

*Income per capita displays the average income for each individual person in a municipality.
