## Updated Information Kit on Ethics and Conflicts of Interest Available from CCM

In an effort to help municipalities develop or improve their codes of ethics and to help them learn more about managing ethical dilemmas, CCM has updated its *Information Kit*, "Ethics and Conflicts of Interest."

The updated kit contains information on developing appropriate codes of ethics and managing conflicts of interest, including:

- examples of several municipal ethics codes and regulations;
- relevant Connecticut General Statutes;
- information on addressing conflict-of-interest issues;
- information on agencies and associations that specialize in ethical issues; and
- publications that address ethics and conflict-of-interest issues.

To obtain a copy of this kit, complete this form, and return it to CCM's Research & Information Service.

Please send me a copy of the updated kit on Ethics and Conflicts of Interest.

**Return to CCM's Research Department
