Resource Lighting & Energy, Inc. (RLE) is a turnkey, design-build energy efficiency solutions provider that comprehensively treats a facility or campus by combining energy upgrades.

Our Expertise

RLE's team consists of mechanical, electrical and professional engineers that are eager to help you reduce your energy consumption and maximize your Return on Investment (ROI). **Our solutions include...**

LED Lighting & Lighting Controls

Upgrade your lighting fixtures to reduce energy consumption and create a more comfortable, productive environment.

Electric Vehicle Supply Equipment (EVSE)

Install EV charging stations at your location! Opportunity for added revenue while supporting a more sustainable future.

Project Funding & Rebates

As a trusted partner of Eversource's program, RLE ensures that you receive the highest available funding and rebates/incentives for your project.

HVAC Upgrades, VRF System Installs

Upgrade your existing system to more efficient boilers and chillers, or install a new VRF system.

Eversource's new program offers 0% interest on-bill funding, and enables CT municipalities and school systems to complete energy-efficiency projects with no money out of pocket.

Mechanical/Electrical Equipment Upgrades

Improve the longevity and function of your system by replacing old equipment with new, efficient models.

All initial site assessments and data analysis are completed at no-cost. **Contact us today to schedule your risk-free site assessment and discover how RLE's upgrades can help you save!**
